Tejas Naik
Frontend Developer

I'm a skilled software developer with experience in JavaScript and Python, and expertise in frameworks like React, Redux, and Supabase, Firebase for DBMS. I'm a quick learner and collaborate closely with clients to create efficient, scalable, and user-friendly solutions that solve real-world problems. Let's work together to bring your ideas to life!

Experience

2021-2022
404 Solutions.Inc | Remote | Ghana

Junior Developer
- Developing and maintaining web applications using Javascript, Python, and other related technologies.
- Collaborating with cross-functional teams including designers, product managers, and other developers to create high-quality products.
- Implementing responsive design and ensuring cross-browser compatibility.
- Participating in code reviews and providing constructive feedback to other developers.
- Employed Python and Flask for efficient DBMS and API development.

Certifications & Specializations

Python for Everybody Specialization
University of Michigan | Coursera | Oct 2020

100DaysOfCode - Python Pro Bootcamp
London App Brewery | Udemy | Aug 2021

The Complete Javascript Course 2022
Jonas Schmedtmann | Udemy | Dec 2022

The Ultimate React Course 2023 (Redux)
Jonas Schmedtmann | Udemy | 2023

Projects / Portfolio

The Wild Oasis - Hotel Management App (for staff)
- Created a staff-focused hotel management web app with React, enabling smooth booking, cabin management, user addition, and guest check-in.
- Implemented React Query to enhance data fetching and management, ensuring real-time updates for bookings and cabins while maintaining a responsive user experience.
- Leveraged Supabase as the database management system, providing secure and reliable data storage for guest information, reservations, and cabin details.
- Employed Higher Order Components (HOCs) to simplify complex logic, enhancing code maintainability and reducing redundancy.

Forkify - Search Over a 1,000,000 recipes
- Created a Recipe Search and Meal Planner web app with a vast recipe database, powered by real-time API integration.
- Implemented an intuitive user interface with responsive design using SAAS for styling, ensuring an optimal user experience across various devices.
- Implemented MVC architecture for code efficiency and worked with a diverse team to deliver a feature-rich, high-performance app.
- Designed and executed advanced features, including dynamic ingredient adjustments.
